

i-TrakII - Long Range VID READER

The i-Trak Long Range VID reader makes motor vehicle access control fast and convenient. Fully weatherproof and compatible with most access control systems through a standard 26bit wiegand interface. Once the i-TrakII TX Windscreen Tag is fitted to the vehicle users can enjoy hands free fully automatic gate activation with no effort required from the driver providing safe and quick access.

- Fully Automatic "Hands Free Operation"
- Read Range of up to 10 meters
- The iTrakII TX tag can work up close on HID proximity readers
- Weather proof Housing - ready to install
- Standard 26 bit Wiegand output
- Fast reliable tag reads
- 12V DC operation
- 433 MHZ

Windscreen Tag Part# i-TrakII-TX

Transmit Frequency	433.92 MHZ
Size	60mm x 29mm x 14mm
Operating Temperature	-10 to +55 Deg Cel
Weight	5g
Colour	Grey

Typical window fitment of iTrakII-TX

Windscreen/Personell Tag Part# i-TrakII-TXP

Transmit Frequency	433.92 MHZ
